

Therabody

Bringing science-backed full body wellness solutions to everybody

Collin Morikawa
Major Champion and Theragun Athlete

Our Story

Born Out of Necessity

In 2007, Dr. Jason Wersland, founder of Theragun®, got into a traumatic motorcycle accident. The accident left him in debilitating muscle and nerve pain, and nothing he tried seemed to help.

He tried treating his injuries with vibration therapy, and when that didn't work, he began his search for a handheld device that provided the deep muscle relief he needed. Dr. Jason was looking for an effective natural solution, and he couldn't find one that he could use on himself in the sea of technological devices at his chiropractic office. He didn't know it at the time, but he was about to create the world's first version of what was to become the Theragun Percussive Therapy device.

We created Tech Wellness.

Designed For Performance, Created For Results

All our products are backed by science and help increase performance, flexibility, mobility, and reduce muscle soreness & stiffness

Theragun

Percussive Therapy

Theragun goes 60% deeper into the muscle than the avg. massager

A: Four-Color Process
Belly Band 23.68" W x 2.5" H

TheraOne

USDA Organic CBD

USDA Certified Organic

Our proprietary full-spectrum hemp CBD products are all-natural and USDA Certified Organic from farm to body.

All Product Compliant with the Farm Bill

TheraOne's hemp-based CBD products contain less than the legal THC limit of 0.3%.

Efficacy

Our high potency full-spectrum hemp CBD strain uses our patent-pending Biosorb Technology, which primes our oil concentrate to increase effectiveness, improve product consistency, and increase product stability (shelf life).

Quality Control from Start to Finish

Everything we create is cultivated, manufactured, and packaged in Colorado. Our products are tested four times, and the final product is sent to an independent, 3rd party lab to verify our test results.

Therabody Product Solutions

Every **body** is different and there is no one size fits all solution, so our portfolio is designed to help meet both your needs and preferences
